Ms. Klaudia Moran  
KGM Productions

Dear Klaudia:

Here are my thoughts about our experience. Hope you can use some of this, as it is all true!

Thank you so much for the beautiful new website. We have received many compliments.

While searching for a company to complete our web design, we were told that the process would be difficult, frustrating and never-ending, and that we should prepare to throw the budget out the window. However, Klaudia and her staff made the process incredibly easy, and we did not exceed our budget. During the development phase and beyond, she continues to be very responsive to our needs, always promptly and patiently answering all of our questions.

Additionally, Klaudia and the programmers created a customized secure area for exchanging data with our clients. We had a very vague idea of what we wanted. With her expertise and insight, the result is a program that is very user-friendly and easy to administer.

I highly recommend Klaudia and the staff at KGM Productions to anyone who wants to create or redesign a top-notch website, or for any specific programming needs.

Best regards,

  
Gwen Sullivan
